DISCOVERY
ACADEMY

March 2025

Thank you for joining us at our Open House, it was a huge success! The students were excited to explore the future location, see the new branding and celebrate the new mascot! A huge thank you to all the volunteers who made the special evening a success!

Student Council

Student council students are excited to serve you at our upcoming Pizza Pub dinner fundraiser. As well as to let you know to watch for flyers about our upcoming Easter Egg fundraisers where you can pre-order stuffed Easter Eggs! Proceeds will benefit the Discovery Academy transition fund.

Children's House I

Mrs. Paetznick & Mrs. Schwerzler

Happy March!

Happy Spring everyone! Hopefully winter is in the past and no surprises along the way! There is that saying March comes in like a lion and April is out like a lamb. Time will only tell.

We will be studying the continent of Asia this month for Geography and in science we will be studying sea life. Kindergarteners will be working on more sight words, working on their math and handwriting books and continuing reading books. Preschoolers are working hard on writing their names, writing, sounds and some have started to read the Bob books.

- Parent/Teacher conferences will be held on March 4th , 5th and the 11th . The sign- up sheet is in the foyer.
- We know it is warming up but please send your child with a jacket and hat. We did send home the outside clothing guide so please look at that to know what to send your child in. If you need another guide, please let me know and I will get one for you.
- If there are any questions about what your child's lunch should look like please refer to the food guide.

- We have two fundraisers coming up in March. Pizza Pub will be on March 24 th , so grab your family and enjoy some delicious food. March 25 th we will be having our last Heggies pizza fundraiser for the school year so stock up for the summer.

Children's House II

Mrs. Lantto & Ms. Emma

Spring is on its way in Children's House 2 and we can't wait! We are set to study the solar system in science and investigate sea shells and sea life. We will be talking about Australia for Geography. Also, we are always hard at work on phonetic awareness (sounds and letters) and doing basic math but with a flare this month we will be doing shelf work with "things that go!" So that will be a lot of fun for these small hands to work with and explore. Planes, trains and automobiles...all the different ways a person can travel.

VOLUNTEERS NEEDED

This amazing new space brings an opportunity for our school to pull together in a stewardship style and create what is to come for Discovery. We have a NEED for the gifts and talents of everyone! Even simple support of providing encouraging compliments/praise to the staff is needed, as the Discovery team is working many volunteer hours to make this move possible.

Please see the Volunteer sign up binder in the foyer if you can share your gifts and talents with us. ***We ask that all families PRAY over this transition as we celebrate preparing and opening the new location!***

Elementary I—Mrs. DeBoer & Ms. Tiffany

March is shaping up to be an exciting month for our first and second graders! We'll be celebrating Dr. Seuss Week from March 3rd to 7th with fun daily activities, and St. Patrick's Day on March 17th with festive crafts and celebrations. Parent/Teacher conferences will take place on March 10th and 11th for our class, and we encourage you to schedule a time to discuss your child's progress. We'll also mark the first day of spring on March 20th, a time to celebrate new beginnings!

We're also looking forward to receiving our Student Treasure's Book later this month, showcasing our students' hard work and creativity. We're so proud of how much our students have accomplished and can't wait to see them continue to thrive!

Elementary II—Mrs. Jordan

Hello Families!

This month we are so excited to complete our book publishing! We are turning in our final drafts to the publisher and cannot wait to see the final product. As we are completing our publishing we will be starting on our novel study of Mary Poppins. In Science we will be focusing on animal habitats and will be starting a project on different types of places that animals live.

I am looking forward to meeting with all of you to discuss your child's progress at school. Please remember to sign up on the clipboard at the front entrance. If you need to schedule a different time please contact me to set that up. Have a wonderful March!

Middle I—Mrs. Amundson

Happy Spring everyone! It sure feels like it is here a little early! With the sun shining and the birds chirping, we are on our way to a great third trimester! This month we have been blessed to have a mission visitor from Guatemala speak to our class about how to be disciples of Jesus and help others. Our guest speaker Anna Lucy Riveria, is a dedicated Bridger from World Renew who is committed to serving communities connecting people from all around the world to share their gifts, talents, and the Gospel to areas of need. Surely the students will get just a glimpse of this amazing service and perhaps be inspired to share their gifts and talents with others someday!

A few reminders for this month:

- Conferences for middles school will be held in the evening on March 10-11. Please sign up in the foyer of the school.
- Mark your calendars for the following dates:
 - April- Mary Poppins Theater Group trip- Details to follow
 - May 8th – school at new location (Mrs. Jordan's & Mrs. Amundson's class only)with the performance of the Mrs. Jordan's class the Mary Poppins Play – details to come!
 - May 9th - MN State Capital visit
 - May 23rd - Student Council- Field trip to Valley Fair
